PSI Global
Level 4
10 Nexus Court
Mulgrave VIC 3170
Australia

Our ref: **XXXXXXX**

VELOCITY CHECK: Lot No 1, 1 Fake Street, Frankston

Water Technology have completed a high level (Stage 1) investigation for the above property and can provide the following information.

Slope in direction of likely flow path:

1 in 250

SAMPLE

Based upon the above slope, flow estimates and Manning's calculation completed by Water Technology as part of this assessment, any flood flow impacting the site would be **less than 1.5 metre per second in velocity in the 1% AEP event.**

Yours sincerely,

Thomas Cousland
